

2nd EPSO Conference – In honour of Jeff Schell
“Interactions in Plant Biology: cells, plants and communities”

“Thank You & See you in 2006”

Ischia, Italy - October 2004

The 2nd EPSO Conference was a big success ...

With amazing talks ranging from “apples in the universe”, the secret of the “insect’s spit” to “microRNAs”, challenging questions from the participants, uncountable inspiring discussions outside the lecture hall, “insider” club discussions surrounding the posters

Lively debates on science policy and the interaction between science and society

Last not least we all enjoyed the flair of the Mediterranean Sea and especially the excursion on and around the island of Ischia

...and we all look forward to welcome you to lively debates at our 3rd EPSO Conference in 2006

EPSO would like to thank:

- ◆ The organizing committee* and secretariat** members for organizing this conference:
 - * Michael Bevan, Chris Bowler, Paolo Costantino (coordinator) Mauro Cresti, Denes Dudits, Helene Lucas, Karin Metzloff (coordinator), Kirsi-Marja Oksman-Caldentey, Mark Stitt, Chiara Tonelli, Roberto Tuberosa, Pierre de Wit, Marc Zabeau
 - ** Katrien Molders and Margherita Groeben
- ◆ **The speakers for their inspiring presentations**
- ◆ **The participants actively taking part in the debates**
